Objective

To secure a challenging internship as a Full Stack Developer, where I can leverage my foundational knowledge of web development, programming, and system support—particularly in the MERN stack and Flutter. I am committed to contributing to the success of your organization through innovative problem-solving, strong technical skills, and a collaborative work ethic, while continuously advancing my professional expertise in modern software development.

Experience

May 2024 — July 2024 **IT**

Intern | Farka ICT

Addis Ababa, Ethiopia

Completed a hands-on internship at Farka ICT, a leading provider of innovative ICT solutions. Contributed to the development and maintenance of web applications, supported network infrastructure, and resolved technical issues. Collaborated closely with the technical team to optimize system performance and improve service delivery. Gained valuable practical skills in system troubleshooting, network support, and software development, while actively participating in real-world ICT projects that enhanced the company's operational efficiency.

Education

June 2021 — June 2025

BSc in Computer Science | Dilla University

Addis Ababa, Ethiopia

CGPA: 3.85 / Exit Exam: 80/100

Successfully completed a comprehensive undergraduate program in Computer Science, focusing on software development, algorithms, data structures, and system design. Demonstrated strong academic performance, graduating with a high CGPA and a solid exit exam score. Developed key projects, including a full-featured Library Management System, and gained practical skills through coursework and hands-on experience. This academic foundation has equipped me with critical problem-solving abilities and a strong understanding of modern computing principles.

Achievements

June 2025

Top Academic Performer at Dilla University

Graduated with a CGPA of 3.85 and scored 80/100 on the national exit exam, demonstrating strong academic commitment and technical understanding.

Completed Certified Online Courses

Earned certificates in Programming Fundamentals and Artificial Intelligence from the 5 Million Coders Initiative, showcasing continuous learning and skill development.

Languages

Certifications

Programming Fundamentals | 5 Million Coders Initiative

Online

Completed a foundational course focused on core programming concepts including variables, control structures, loops, functions, and basic problem-solving techniques. This course enhanced my ability to write clean, logical, and efficient code using languages like Python and C++.

Artificial Intelligence Fundamentals | 5 Million Coders Initiative

Online

Gained a foundational understanding of Artificial Intelligence, covering topics such as machine learning, neural networks, natural language processing, and real-world applications of AI. The course emphasized both theoretical knowledge and practical insights into how AI technologies are shaping the future.

Summary

Motivated and detail-oriented Computer Science graduate from Dilla University with a CGPA of 3.85 and an exit exam score of 80/100. Gained practical experience as an IT Intern at Farka ICT, where I contributed to web development, network troubleshooting, and system optimization. Skilled in programming, technical support, and ICT systems with a solid foundation in both theoretical knowledge and hands-on application. Known for strong problem-solving ability, adaptability, and effective teamwork. Eager to apply my skills and grow professionally in a dynamic and challenging ICT environment.
